

## Test Summary

|                     |                     |
|---------------------|---------------------|
| Project Name        | asus ux363ea-hp668w |
| Benchmark Version   | 1.0.2.58            |
| Completion Date     | 2022-01-06 14:50:20 |
| Iterations          | 3                   |
| System Conditioning | True                |
| Process Idle Tasks  | False               |

## Performance Scores

|                 | Productivity | Creativity | Responsiveness | Overall Rating |
|-----------------|--------------|------------|----------------|----------------|
| Scenario Rating | 1414         | 1876       | 1606           | 1621           |
| Iteration 1     | 1413         | 1872       | 1596           |                |
| Iteration 2     | 1415         | 1865       | 1619           |                |
| Iteration 3     | 1412         | 1890       | 1602           |                |
| Calibration     | 1000         | 1000       | 1000           | 1000           |

## System Information Comparison Table

| System Info | This System                                                    | Calibration System          |
|-------------|----------------------------------------------------------------|-----------------------------|
| BIOS        | American Megatrends International, LLC. UX363EA.315, 8/10/2021 | Dell Inc. 1.7.7, 12/10/2017 |

### Core + Memory

|                  |                                                                                             |                                                                                      |
|------------------|---------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| Motherboard type | UX363EA                                                                                     | 0WWJRX                                                                               |

## **BAPCO® MISSION**

Business Applications Performance Corporation (BAPCo®) is a non-profit consortium with a charter to develop and distribute a set of objective performance benchmarks for personal computers based on popular computer applications and industry standard operating systems.

## **ABOUT THE CALIBRATION SYSTEM**

The calibration system is a system chosen as a reference point for all other SYSmark® 2018 results. BAPCo chose the configuration above for its wide availability and its representation of a typical mainstream PC at the time of release of SYSmark 2018.

SYSmark® has been calibrated in such a way that a PC with performance equivalent to this calibration system for a given workload will have a performance rating of 1000. A system twice as fast as the calibration system on a given workload (or, equivalently, that responds in half the time on average) will have a performance rating of 2000. This is true for both overall ratings and scenario ratings.
